

SUMANTH REDDY KONANNAGARI

Software Engineer — Java | .NET | Full Stack

Hamilton, ON ♦ [+1 905 975 9897](tel:+19059759897) ♦ ksumanthreddy321@gmail.com ♦ linkedin.com/in/sumanth-reddy-konannagari ♦ github.com/SumanthReddyKConestoga

SUMMARY

Software Engineer with 3 years of enterprise experience at EY (Ernst & Young) building production systems in Java Spring Boot and C# ASP.NET Web API — 14+ REST APIs and 5–6 microservices for Dell Technologies' global e-commerce platform, plus Python automation recovering 90+ person-hours/month. Full-SDLC developer with hands-on test automation (Selenium, Katalon Studio, JUnit, NUnit, Postman) and cloud-native delivery using Docker, AWS, and GitHub Actions CI/CD. Postgraduate studies at Conestoga College — Applied AI & Machine Learning (GPA 3.71/4.0) and a completed Graduate Certificate in Cloud Development & Operations — with deployed capstones spanning computer vision and RAG pipelines.

TECHNICAL SKILLS

Languages: Java · C# · Python · SQL · JavaScript · TypeScript

Backend: Spring Boot · ASP.NET Web API · REST APIs · Microservices · JPA · Maven · FastAPI · Node.js

Frontend: React · Angular · Next.js · HTML5 · CSS3

Databases: PostgreSQL · Microsoft SQL Server · Redis · pgvector

Cloud & DevOps: AWS EC2 · Microsoft Azure · Docker · GitHub Actions CI/CD · Terraform · Linux · Nginx · Git

Testing & Quality: JUnit · NUnit · xUnit · Selenium · Katalon Studio · Postman · Regression & System Integration Testing

AI & Machine Learning: scikit-learn · TensorFlow · pandas · NumPy · Computer Vision (OpenCV · YOLOv8) · OCR (PaddleOCR) · RAG (FAISS · sentence-transformers) · Anthropic Claude API

Practices: Agile/Scrum · SDLC · OOP · SOLID Principles · Code Review · Jira · Confluence

PROFESSIONAL EXPERIENCE

Associate Consultant — Java Full Stack Developer

Sep 2023 – Dec 2024

EY (Ernst & Young) LLP · Client: Dell Technologies

- Designed and shipped **14+ production REST API endpoints** in Java Spring Boot — controller logic, service-layer rules, request validation, and exception handling for Dell's product catalogue and recommendation systems serving **millions of records**
- Delivered **5–6 production microservices** for Dell e-commerce data flows applying OOP and SOLID principles across a 6-engineer Agile/Scrum team; Git feature-branch workflow with Jira and Confluence
- Owned quality across delivery: JUnit unit tests on Spring Boot services, Selenium automation for a Dell dashboard microservice feature, Postman API validation, and root cause analysis of production defects
- Built Python automation eliminating 6 hrs of daily manual processing — recovering **90+ person-hours/month** with a **60% throughput gain**; led SQL schema validation and query optimization at enterprise scale

Senior Analyst — .NET & Java Full Stack Developer

Aug 2022 – Sep 2023

EY (Ernst & Young) LLP

- Translated stakeholder requirements into C# ASP.NET Web API modules for a financial-services dashboard on Microsoft SQL Server — API endpoints, service-layer rules, and secure data retrieval workflows
- Automated regression, API, and database test suites in Katalon Studio and wrote NUnit/xUnit unit tests; ran system integration testing, peer code review, and deployment documentation for production rollouts
- Transitioned mid-tenure to Java Spring Boot full-stack delivery — independently shipping features end-to-end from technical analysis through deployment support

Technology Intern — Java Developer

Feb 2022 – Aug 2022

EY (Ernst & Young) LLP

- Developed Spring Boot service components, REST endpoints, and SQL integrations for a live e-commerce application; unit testing, code reviews, and defect triage in Agile/Scrum
- Took ownership beyond intern scope — independently handled user enquiries on live application behaviour and shipped fixes through the full review-to-deploy cycle

PROJECTS

PatholIntern · Next.js 14 · TypeScript · FastAPI · PostgreSQL · pgvector · Docker · GitHub Actions

Live: ga.pathointern.ca

- Built a FastAPI REST API with **16+ endpoints**, JWT authentication, and role-based access control across a 7-table PostgreSQL schema with pgvector semantic similarity
- GitHub Actions CI/CD running **135 automated tests** with auto-deploy from QA to production behind Nginx TLS

E-Commerce Platform (Freelance) · Java Spring Boot · JPA · Maven · Razorpay · AWS EC2 **Aug 2025 – Jan 2026**

- Designed and shipped a grocery/retail e-commerce platform: modular Spring Boot backend with product management, inventory, bulk ordering, and payment modules; **12+ REST APIs** with Razorpay payment gateway integration
- Deployed to production on AWS EC2 with Linux and Nginx; validated releases with Postman API test collections and documented the full SDLC from requirements through release

PillSafe · YOLOv8 · OpenCV · PaddleOCR · FAISS · Anthropic Claude API · FastAPI · PostgreSQL · Docker

- AI medication safety platform combining YOLOv8 pill detection, CNN+FAISS similarity retrieval, and PaddleOCR prescription parsing with fusion logic producing structured warnings with confidence scores
- FastAPI backend with async SQLAlchemy/Alembic migrations, JWT authentication, and Dockerized deployment

EDUCATION

Graduate Certificate — Applied Artificial Intelligence & Machine Learning

Jan 2026 – Aug 2026

Conestoga College, Waterloo, ON · GPA: 3.71 / 4.0

Graduate Certificate — Cloud Development & Operations

Jan 2025 – Aug 2025

Conestoga College, Waterloo, ON · GPA: 3.47 / 4.0

MTech (Integrated) — Instrumentation & Control Engineering

2017 – 2022

SASTRA University, Tamil Nadu, India

CERTIFICATIONS

- **Microsoft Certified: Azure Fundamentals (AZ-900)** — Microsoft · May 2024
- **EY Artificial Intelligence — Applied AI (Bronze Learning)** — EY · Jul 2024
- **EY Cloud — Learning** — EY · Dec 2022
- **LFS101: Introduction to Linux** — The Linux Foundation · Feb 2025
